

DOG GONE - pet I.D

Reflective, Updateable Pet ID System

Unique STRETCH rings fit over almost any collar buckle

Fitting Instructions

1. Thread collar through the first stretch ring
2. And then through the second
3. Complete the ID using a fine-tipped permanent marker and insert into internal pocket
4. Fitted and ready to go!

Step 1

Step 2

Step 3

Step 4

The Dog Gone ID System has several unique features that set it apart from other pet ID systems on the market

Unique Features of the Dog Gone ID System

- **Updateable ID Card** - Easily update your dogs ID when you change telephone numbers or address, or when your away at the cottage for when your dog is being cared for by friends or relatives.
- **Stretch Fitting Rings** - Our unique stretch fitting rings allow the system to be fitted over almost any collar fitting (see attached images)
- **Silent In Use** - No annoying jingle-jangle noise that you get when using traditional metal dog tags
- **Highly Reflective** - Uses silver **3M** Scotchlite® Reflective material allowing you dog to be easily seen in low light conditions
- **100% Waterproof** - The entire system is totally waterproof, including the ID insert cards
- **Tough & Durable** - Our ID system is strongly constructed using rot resistant stitching to ensure long product life
